this book reveals the mother of all conspiracies it sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth the most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1 000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66 600 miles per hour all of this is happening as the sun in turn is supposed to be hurtling through the milky way

galaxy at approximately 500 000 miles per hour the milky way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour what most people are not told is that the purported spinning orbiting and speeding through space has never been proven in fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move this book reveals the evil forces behind the heliocentric deception and why scientists and the christian churches have gone along with it

the author argues in his essay on the revolution of the right to education that the birth of the human right to education after a millennia long gestation has opened up a new chapter in the history of education moreover its normative jurisprudential doctrinal and programmatic developments are constituents of an international education law that is now the highest source in the hierarchy of the contemporary normativity on education to which the education law in states parties should conform therefore it should be recognised and studied as a new legal and educational discipline the source of principles of legitimacy and quality of education this book offers an interdisciplinary and topical introduction to the international education law broadly defined it explains in what ways the normative integrity of the right to education carries far reaching revolutionary significance corollary of the revolution of human rights and the revolution of the rights of the child
